Dropbox

This function allows you to link a folder on the network drive to your dropbox account, so that you can synchronize and backup the files with other devices.

This function is only available on certain models (e.g. MyCloud Pro).

| Dropbox Loc | ation <u>/home/Dropbox/</u> | |
| | Apply Refresh | |

| Field | Detail | | |
|-------------------------------|--|--|--|
| Enable Dropbox | Select the check-box to enable the dropbox function. | | |
| Register a Dropbox Account | Click on this link to register a new account with dropbox. | | |
| Dropbox Link Information | Click on this link to either register or unlink the device with dropbox. | | |
| Status | Shows the current status of the dropbox application (e.g. waiting to be linked, downloading, idle, etc.). | | |
| Dropbox Location | By default, this path is set to /home/Dropbox/. If you would like to change it, click the link and select your preferred folder. | | |
| Apply | Apply and save the changes. | | |

To access the configuration menu, you can either go to Applications > Dropbox or you can click on the dropbox icon in the taskbar (top right of the screen beside the time).

Dropbox Setup

- 1. Login to your network drive as administrator.
- 2. Go to Applications > Dropbox.
- 3. Select the check-box to enable the dropbox function and click **Apply** to save the settings.
