Taskbar

The taskbar on top of the screen is a permanent menu that contains the system menu and some other important information as well as a couple of shortcuts that are often needed.

The taskbar cannot be customized or moved to another location. The information seen in the taskbar changes depending on the user who is logged in and the window that is currently open.

lcon	Description
۸	Opens the system menu.
System	This label/link changes depending on the window or application that is currently open. The drop-down menu offers the option to hide the selected window/application or hide all windows except the currently selected one.
1	Shows the currently logged in user.
Q	Shows the date and time of the network drive.
÷	Click to open the configuration menu for the dropbox function. This function is only available on certain models (e.g. MyCloud Pro).
.	Click to hide all open windows and show the desktop.
8	Click to display the disk information, showing all the drives that are currently connected (e.g. internal SATA drives, RAID array, external USB drive).
▲	Click to show the attached USB drives. Select a drive from the list and click Eject to eject the attached USB drive(s), before you disconnect or turn off the USB drive(s).
•	If this icon appears, a new firmware update is available for download. Click to go to Preferences > Firmware.
?	Click to open the online manual at http://wiki.myakitio.com.
<u>س</u>	Shows the latest MyCloud related news from the AKiTiO blog. The pop-up window closes automatically after 5 seconds unless you hover over the window with your mouse pointer.

System Menu

Click on the AKiTiO logo in the top left corner of the screen to open the system menu.
